## SUMMARY

Motivated Python enthusiast and aspiring backend developer with hands-on experience in full-stack development, particularly in building dynamic and scalable applications. Strong foundation in Python, JavaScript, and web technologies, backed by successful project deliveries at Shanthi IT Solution. Proven ability to manage multiple projects and deliver high-quality solutions that meet client needs.

## EDUCATION

- **Uniq Institute of Technologies** Chennai, Tamil Nadu  
*Python Full Stack Course* 2023 - 2024
- **Sri Sankara Arts & Science College** Kancheepuram, Tamil Nadu  
*Bachelor Degree; GPA: 64.12%* 2019 - 2022
- **Government Hr. Sec. School** Somangalam, Tamil Nadu  
*12th Grade; GPA: 47.83%* 2018 - 2019
- **Government Hr. Sec. School** Somangalam, Tamil Nadu  
*10th Grade; GPA: 71%* 2016 - 2017

## SKILLS SUMMARY

- **Programming Languages:** Python, JavaScript, PHP
- **Web Technologies:** HTML, CSS, Bootstrap
- **Web Frameworks:** Flask, Django, REST API
- **Data Science Tools:** NumPy, Pandas
- **Databases:** MySQL, PostgreSQL, SQLite, SQLAlchemy
- **Version Control:** Git, GitHub
- **Code Editors:** Visual Studio Code, PyCharm
- **Languages:** Tamil, English

## EXPERIENCE

- **Shanthi IT Solution** Valasaravakkam, Tamil Nadu  
*Full Stack Developer* May 2024 - August 2024
  - **Website Development:** Developed and maintained multiple client websites, ensuring responsiveness and user-friendly interfaces. Engaged in regular testing and updates to keep the sites current and functional.
  - **Backend Development:** Worked on full-stack development, utilizing HTML, CSS, JavaScript, Python, Flask, Django, and MySQL. Implemented RESTful APIs to connect the front end with back-end services.
  - **CRM and Invoice Software:** Designed and implemented a CRM and Invoice Billing Software that streamlined client management processes, providing functionalities like invoice generation, customer tracking, and report generation.
  - **Funeral Services Website:** Led the development of a comprehensive website for Mukthimaarg Funeral Services, integrating features for service details, obituary listings, and emergency contact information.
  - **Performance Optimization:** Conducted performance assessments, optimizing database queries and implementing caching mechanisms that improved site load times by up to 50%.
  - **Client Collaboration:** Collaborated with clients to gather requirements, provide project updates, and ensure deliverables aligned with business objectives.
  - **Cloud Deployment:** Managed cloud deployments for various projects, ensuring high availability and security of hosted applications. Conducted regular backups and updates to maintain system integrity.
  - **Documentation and Training:** Created detailed documentation for software applications and provided training to clients on new features.
  - **Internship Training:** Trained and mentored internship students in full-stack development, enhancing their technical skills and practical knowledge.

## PROJECTS

- **CRM and Invoice Billing Software:** Developed a custom CRM and Invoice Billing Software aimed at small businesses to enhance client management and automate billing processes. The software allows users to track customer interactions, manage invoices, and generate reports.
  - Skills Used: Python, Django for back-end development; MySQL for database management; HTML, CSS, and JavaScript for front-end interface; REST API for data communication.
  - Outcome: Improved operational efficiency by 30%, reducing manual billing errors and enhancing customer satisfaction.

- **MPS Aerospace Website:** Developed and maintained the MPS Aerospace website, showcasing various aerospace products and services. The site features a user-friendly interface with detailed product descriptions, specifications, and a responsive design to ensure compatibility across devices.
  - Skills Used: HTML, CSS, JavaScript for front-end development; Flask for back-end processes; responsive web design techniques to enhance user experience.
  - Outcome: Increased user engagement by 40%, leading to a significant rise in inquiries and sales.

---

- **Sandhai (E-commerce website):** Developed a full-featured e-commerce web application hosted on PythonAnywhere. This application includes user signup and signin functionality, authentication and authorization, an "add to cart" feature, and the ability to save favorite items.
  - Technologies Used: Django (5.0.6), Asgiref (3.8.1), MySQL (mysqlclient 2.2.4), and other libraries including Pillow (10.3.0) for image handling and django-jazzmin (3.0.0) for an enhanced admin interface.
  - Features:
    - \* User registration and login with secure password management.
    - \* Role-based access control for different user types.
    - \* Shopping cart functionality with auto-incrementing item quantities.
    - \* Favorites feature allowing users to save and manage their preferred products.
  - Outcome: Enhanced user experience and engagement with seamless navigation and secure transaction capabilities, leading to increased user satisfaction and retention.
